Heart History.

HY ROBERT JOSSELYN. Once upon a time a maiden Sat beneath a hawthorn tree, And her lover, close besida her, Murmured vows of constancy. Fairer, sweeter than the blossom Hanging over her, was ahe; And her heert, within her bosom. Throbbed and glowing tumultuously.

Both were vunng and fond and foolisit, Neither rich, the story goes: Ma was proud, and Pa was mulish, Great their love and great their woes, So they kissed, and wept, and parted, Swearing to be ever true. Died the maiden broken hearted! Was the lover taithful, too?

(Slander whispetrif she was soid,) And no city dames outrank her, With her pockets full of gold; Queen at every ball and party, Deckel with lace and jewers rare, Looking very fresh and hearty, Reigns the victim of despair.

Pshaw? she wed a wealthy hanker.

DESCRIPTION.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which rould be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—noe which should have none of the objections, but all the advantages, of every other. This has been attempted nere, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative melicine is acrimonious and irritating to the bowels. This is not. Many of them produce so numbering pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, umess it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases in which they are applicable are given on the box. Among the complaints which have been specific cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loius; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Cos-

Blious Fever, Fever and Ague, Pau in the Sile and Loins; for, in truth, all fliese are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dyscutery, Humors, Serifula and Scurvy, Colds with soremess of the budy, Ulcers and impurity of the blood; in short, any and every ease where a purgative is required.

They have also produced some singularly successful cures in Rhemandism, Gont, Drupsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the Idood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, removate the strength of the looly, and testore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no scripus derangement exists; but unnecessary dosing should never be carried for langas every purgative medicine reduces the strength, when taken to evers. The thous and ease in which necessary dosing should never be carried for lar, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in when a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believe? this pill will answer a better purpose them any thing which has hitherto Leen available to trankind. When their virtues are once known, the public will no longer floubt what remedy to employ when in need of a cathartic medicine.

AYER'S CHERRY PECTORAL,

For the rapid Care of COUGHS. COLDS, HOARSENESS, BRONCHITIS. WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidoto to employ for the distressing and dangerous affections of the pulmonary creams which are incident to our climate. And not only in formidal le attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by
